

Without getting too deeply into detail, our radio station broadcast two live three hour community debates related to the siting of a NASCAR track, broadcast a Volunteers of America Christmas show, conducted two on-air fundraisers generating several thousand dollars for two charities, and provided thousands of PSAs for organizations ranging from Christmas House, to Volunteers of America, Deaconness Childrens Services, Sherwood Community Services, the Boys and Girls Clubs and many more. If you would like us to provide additional detail and more evidence, it is readily available. Please do not re-regulate content. It is not necessary.
